Partnership in action

About us

Who are People First?

People First has been supporting people across the North of England for over 30 years.

Our work is built upon the foundational belief that each and every individual is treated equally and fairly. We strive to make this a reality by supporting people to have their views heard and their rights respected so that they can live their lives the way they choose.

In Lancashire, we have the privilege of facilitating the Lancashire Learning Disability Peer Advocacy Network, and supporting the Learning Disability Partnership Board.

The Peer Advocacy Network, established by Lancashire County Council, brings people with a learning disability together with a shared purpose: to live their lives the way they choose, uninhibited by societal limitations or misconceptions.

We do this in many ways, including empowering members to speak up and to advocate for themselves and their peers.

Members of the Network, empower one another to be creative and determined to achieve their aspirations, as well as challenging inequality and injustice when they see it.

The Network gives opportunities for collaborative work to ensure people with a learning disability get better access to health and social care, housing or employment. It champions the rights of people to develop friendships, relationships and to be heard and seen as valued members of communities.

Building upon individual and collective experiences, the Network has the confidence and insight to help shape current and future services and systems. It is not solely focused on empowering its members, the Network aims to achieve societal change across the county. Change where communities, businesses and industries do not discriminate or exclude people with a learning disability from the same opportunities available to others.

About us

What is the Lancashire Learning Disability Partnership Board?

The Lancashire Learning Disability Partnership Board is a platform for this collective, collaborative work to improve the lives and opportunities of people with a learning disability in the county.

The Board has representatives from:

- Statutory organisations, responsible for both universal and specialist services accessed by people with a learning disability.
- Community organisations, promoting equal, valued citizenship.
- People with lived experience of a learning disability and their family or carers.

Our vision is to bring **impactful, meaningful, change.**

About the awards

Stronger Together Awards

The Stronger Together Awards event is like no other in Lancashire.

Over 120 guests from across the county's public, private and third sector will come together at Barton Manor Hotel on the 24th September to celebrate the people who help make our community stronger. The event will shine a light on the individuals, groups and organisations making a real difference to the lives of people with a learning disability through collaboration, advocacy and inclusive practice.

These awards recognise that lasting change happens when voices are heard, partnerships are valued, and inclusion is at the heart of everything we do.

The Stronger Together Awards is our Lancashire Learning Disability Partnership Board flagship event. We are working with businesses to change the way they work alongside people with a learning disability. We are actively looking for new business partners to become part of this. Sponsoring this event could be your initial step!

You have the potential to help change lives and strengthen local communities.

“

"The Stronger Together Awards is a celebration of unity and impact in Lancashire and to honour those making a real difference. This event showcases the power of collaboration, advocacy, and inclusion.

I'm thrilled to see our community come together to recognise these champions of change. Let's continue to value every voice and partnership, making our community stronger together. Join us and be part of what comes next!"
